

# BRP API version 3

BRP System has from **version 2016.5006** released version 3 of it's Application Programming Interface (API).

The documentation of BRP API version 3 is bundled together with BRP Online and can be found at the following URL:

```
<GogURL>/external/documentation/api3?key=nnn
```

where xxx is a license key that BRP will generate for you.

## How to use both BRP API v2 and v3

If you already are using BRP API version 2 and would like to use API version 3 you have to use other authentication method using access token. Instructions how to retrieve API v3 access token through API version 2 call be found here: [generateapi3token](#)
